

## The Turnkey Solution for Recruiting Success

Dear Staffing Professional:

Imagine gathering all of a city's most qualified candidates together in one place at one time for a series of exclusive face-to-face interviews with your company alone.

Then imagine doing that without having to spend weeks of your valuable time on the screening, scheduling and logistical details necessary to make it a huge success.

You've just imagined ***Outsourced Recruiting Events®***, a new service from NC3 that's delivering real world results for recruiting professionals.

### **Better candidates. Better hires**

The ***Outsourced Recruiting Events (ORE®)*** concept is a true turnkey solution that delivers a high-quality candidate pool at a very efficient cost-per-hire. ***ORE eliminates the burden of pre-interview activities*** for HR and recruiting professionals to let them focus more intently on critical face-to-face interviews.

The ***ORE*** process starts with defining your ideal candidate profile. Whether your goal is diversity, areas of academic focus or particular performance parameters – or any combination of criteria – we will deploy a set of on-campus and on-line contact and screening tools to deliver the precise candidate profile you require.

After identifying prospective candidates, we assess their resumes and other pertinent data. Those meeting your screening criteria are invited to attend an exclusive interview session at the time and location you choose.

All that's left to you is to show up and interview the slate of high quality candidates we have gathered for you.

Your ***Outsourced Recruiting Event*** even includes the cost of meeting space and an on-site host to provide assistance to your staff throughout the event.

### **Effective and efficient.**

While the ***ORE*** program is available to any company, ***it really levels the playing field for mid-size companies and divisions of larger organizations*** that can't commit the resources to support a process-intensive entry-level recruitment program.

And ***Outsourced Recruiting Events*** deliver incredibly efficient cost-per-hire figures. How efficient? One ***ORE*** client recently hired 17 candidates at a total program cost of under \$14,000 – ***less than \$825 per hire!***

### **Uniquely positioned to deliver quality recruiting solutions.**

Since 1996, NC3 has been helping companies streamline their recruitment programs with a menu of outsourced back office support services. With the introduction of ***Outsourced Recruiting Events***, we can now deliver more high-quality candidates to more hiring organizations than ever before. I certainly hope you will be among them!

To find out more about holding an ***Outsourced Recruiting Event*** for your company, please call me at 000-000-0000 or send me an e-mail at [miserson@nc3.com](mailto:miserson@nc3.com).

Sincerely,
